Technical Guide 1
Introduction

WHY EMERGENCY PLANNING IS NECESSARY

From the federal government to individual businesses, and everyone in between, planning for sudden, unexpected situations is critical. “Due to Florida’s unique coastal geography, the state is vulnerable to many natural hazards, including flooding, tropical cyclones (tropical depressions, tropical storms and hurricanes), tornados, and wildfires. The state’s heavy economic reliance on agriculture and tourism industries also makes Florida vulnerable to freezing temperatures, drought, and biological hazards. Technological hazards are those that are direct result of the failure of a man-made system or the exposure of a population to a hazardous material. Florida is vulnerable to nuclear power plant accidents, hazardous materials incidents, mass communication failures, major power disruptions, and critical infrastructure disruption/failure. Finally, man-made hazards include terrorist attacks and mass migration events. Florida faces both of these hazards due to the high number of facilities within the state associated with tourism, military, and government activities and the state’s close proximity to oppressed and politically unstable regimes in the Caribbean.” [Florida Comprehensive Emergency Management Plan, 2010]

An emergency plan provides guidance during an emergency, clearly defining objectives, roles and responsibilities and accelerating the resumption of normal activities.

COMPREHENSIVE EMERGENCY MANAGEMENT

Comprehensive emergency management involves preparing for and carrying out emergency functions to mitigate, prepare for, respond to, and recover from emergencies and disasters.

The State of Florida has adopted a Comprehensive Emergency Management Plan (CEMP) which integrates with the emergency management plans and programs of the federal government. The state CEMP has three parts: the Basic Plan, Emergency Support Function Annex, and Incident-Specific Annexes.

At the local level, each of Florida’s 67 counties is required to develop its own comprehensive emergency management plan, consistent with the state CEMP.

The state and county CEMPs are the master operations plans for preparing for, responding to, recovering from, and mitigating all emergencies and all catastrophic, major and minor disasters. The plan is equally appropriate for natural, technological, or man-made emergencies or disasters.

- Mitigation: The State of Florida’s mitigation efforts help to ensure that the residents, visitors and businesses in Florida are safe and secure from natural, technological and human-induced hazards by reducing the risk and vulnerability before disaster occurs.

- Preparedness: Preparedness activities ensure governments and their residents and visitors are ready to react promptly and effectively during an emergency. Preparedness activities include obtaining information on threats, planning an organized response to emergencies, providing preparedness training for emergencies, conducting drills and exercises to test
emergency plans and training, obtaining and maintaining emergency equipment and facilities, establishing intergovernmental coordination arrangements, and conducting public education related to emergencies.

- **Response**: Response includes those actions that must be carried out when an emergency exists or is imminent. Activities include notifying key officials and warning the public of emergency situations; activating emergency facilities; mobilizing, deploying, and employing personnel, equipment, and supplies to resolve the emergency situation; and providing emergency assistance to the affected local population.

- **Recovery**: Recovery consists of both short-term and long-term activities.
  - **Short-term recovery** operations are conducted to restore vital services, such as electrical power, water, and sewer systems, clear roads in affected areas, and to provide emergency assistance to disaster victims. Disaster relief programs to help restore the personal, social, and economic wellbeing of private citizens will be administered by non-profit disaster relief and charitable organizations, and local, state, and federal disaster relief programs.
  - **Long-term recovery** focuses on restoring communities to a normal state by assisting property owners in repairing or rebuilding their homes and businesses and assisting local governments, school districts, and other public non-profit agencies in restoring or reconstructing damaged infrastructure. State, local and non-government organizations will administer the provisions of federal and state disaster relief funds to provide for restoration and recovery of vital facilities.

*[Florida Comprehensive Emergency Management Plan, 2010]*

The state coordinates its emergency response activities through 18 Emergency Support Functions (ESFs). Each ESF is lead by a primary state agency and supported by additional state agencies.

**ESF 1 – Transportation**
Provide or obtain transportation support.
*Lead Organization: Dept. of Transportation*

**ESF 2 – Communications**
Provide telecommunications, radio and satellite support.
*Lead Organization: Dept. of Management Services, Div. of Comm.*

**ESF 3 – Public Works and Engineering**
Provide support in restoration of critical public services, roads and utilities.
*Lead Organization: Dept. of Transportation*

**ESF 4 – Firefighting**
Support detection and suppression of wild land, urban and rural fires.
*Lead Organization: Dept. of Financial Services; State Fire Marshal*

**ESF 5 – Information and Planning**
Collect, analyze and disseminate critical disaster information to SERT members.
*Lead Organization: Division of Emergency Management*

**ESF 6 – Mass Care**
Manage temporary sheltering, mass feeding and distribution of essential supplies for disaster victims.
*Lead Organization: Dept. of Business & Professional Regulation; Dept. of Children & Families*

**ESF 7 – Resource Management**
Provide logistical and resource support to other organizations through purchasing, contracting, renting and leasing supplies.
*Lead Organization: Dept. of Management Services, Div. of Purchasing*

**ESF 8 – Health and Medical Services**
Provide health, medical care and social service needs.
*Lead Organization: Dept. of Health*

**ESF 9 – Search and Rescue**
Provide rescue services.
*Lead Organization: Dept. of Financial Services, State Fire Marshal*
ESF 10 – Environmental Protection
Respond to actual or potential hazardous materials discharges and other situations threatening the environment.
Lead Organization: Dept. of Environmental Protection

ESF 11 – Food and Water
Secure bulk food, water and ice to mass care sites.
Lead Organization: Dept. of Agriculture and Consumer Services

ESF 12 – Energy
Support response and recovery from shortages and disruptions in supply and delivery of energy resources.
Lead Organization: Public Service Commission; Florida Energy & Climate Commission

ESF 13 – Military Affairs
Provide military resources to support logistical, medical, transportation and security services.
Lead Organization: Dept. of Military Affairs, Florida National Guard

ESF 14 – External Affairs/Public Information
Disseminate disaster related information to the public.

ESF 15 – Volunteers and Donations
Coordinate utilization and distribution of donated goods and services.
Lead Organization: Volunteer Florida

ESF 16 – Law Enforcement
Coordinate the mobilization of law enforcement and security resources.
Lead Organization: Dept. of Law Enforcement

ESF 17 – Animal Protection
Provide rescue, protective care, feeding and identification of animals separated from their owners.
Lead Organization: Dept. of Agriculture and Consumer Services

ESF 18 – Business, Industry and Economic Stabilization
Assist local economic development, workforce and business support organizations. Lead Organization: Dept. of Economic Opportunity

RELATIONSHIP TO OTHER PLANS

EDOName is responsible for the safety and protection of itself and the business community in the event of a disaster. This EDOName Comprehensive Emergency Management Plan provides for the employment of local economic development resources in partnership with other local organizations and government entities as well as state organizations and government agencies to carry out operational strategies to achieve emergency management objectives in sudden unexpected situations.

Relationship to County Emergency Management Plans: This plan provides for coordination with county officials to aid recovery from unexpected emergencies and disasters, and effectively integrate support from neighboring counties and among municipalities within the county when statewide mutual aid agreements (SMAA) are activated.

Relationship to State Emergency Management Plans: This plan provides for integration of county response operations with the state agencies responding to emergency situations in Florida at the request of the county. ESF 18 (Business, Industry and Economic Stabilization) will work with local and regional economic, workforce and tourism development partners “to coordinate local, state and federal agency actions that will provide immediate and short-term assistance for the needs of business, industry and economic stabilization.” [Florida Comprehensive Emergency Management Plan, 2010]
Purpose

The purpose of the EDOName Comprehensive Emergency Management Plan (CEMP) is to:

▪ provide preparedness and response assistance for EDOName staff in the event of an unexpected emergency;
▪ provide broad-level planning and guidance for preparedness, response, and recovery activities to assist the business community in CountyName County;
▪ describe EDOName’s role in supporting county governments and state agencies during an emergency or major disaster;
▪ describe the actions that EDOName will initiate, in coordination with county and state partners; and
▪ describe the mechanisms to deliver immediate response and recovery assistance.
Roles and Responsibilities

In accordance with Florida’s Comprehensive Emergency Management Plan (CEMP), the following are highlights of federal, state, and county roles during an emergency or disaster. A more thorough description of roles and responsibilities can be found in the state CEMP. Roles focused on business, industry and economic stabilization, performed by economic development agencies and organizations, are found in the following chapter, Operational Overview.

**Statutory & Jurisdictional Responsibilities**

**Federal Government**
Under the National Response Framework and other federal emergency plans, the federal government may provide assistance to a state upon the request of the Governor or when a primary federal jurisdiction is involved.

**State of Florida**
- Prepare a state Comprehensive Emergency Management Plan (CEMP) that is integrated into and coordinated with the emergency management plans and programs of the federal government.
- Maintain a State Emergency Operations Center (SEOC) that can accommodate the State Emergency Response Team (SERT) and State Watch Office (SWO). The SWO is a single point to disseminate information and warnings to government officials regarding an actual or imminent emergency or disaster.
- Conduct annual disaster preparedness training activities with state and local agencies.
- Activate the State Emergency Response Team (SERT) and specialized response teams in advance of an actual emergency.
- Coordinate the state’s emergency response activities through its 18 Emergency Support Functions (ESFs).
- Maintain an inventory of state emergency equipment and supplies available to deploy.
- Maintain a program to require that all evacuation shelters are compliant with American Red Cross ARC 4496 standards.
- Administer the Emergency Management, Preparedness and Assistance Trust Fund.
- Ensure county emergency management plans are coordinated and consistent with the state CEMP.
- Assist federal government agencies during a disaster.

**County Government**
- Develop a county emergency management plan that is consistent with the state Comprehensive Emergency Management Plan (CEMP).
- Conduct education for county residents regarding disaster assistance.
• Ensure ability to maintain and operate a 24-hour warning point and coordinate public information activities during an emergency or disaster.

• Coordinate the emergency management needs of all cities and communities in the county and establish mutual aid agreements with neighboring counties.

• Maintain cost and expenditure reports associated with emergencies and disasters.

• Issue evacuation orders (if applicable).

• Declare a local state of emergency (LSE) and request assistance from the state (if applicable).

**Emergency Declaration Process**

**Authority to Declare a State of Emergency**
The authority to declare a state or local state of emergency is identified in Chapter 252, Florida Statutes. At the local level: a mayor, city manager, or board of county commissioners can declare a local state of emergency. At the state level, the Governor is empowered with this responsibility. At the national level, the President of the United States can declare an area a disaster area. [Florida Comprehensive Emergency Management Plan, 2010]

**County Emergency Declaration Process**
In the event of an emergency or disaster, the impacted counties will coordinate the emergency response effort within their political jurisdictions (county and municipalities). If necessary, a county will activate the Statewide Mutual Aid Agreement (SMAA) for the exchange of emergency mutual aid assistance with neighboring counties and among municipalities within the county. This agreement is strictly for emergency purposes only. When the event is beyond the capacity of the local government, the county emergency management agency will request state assistance through the State Emergency Response Team (SERT). [Florida Comprehensive Emergency Management Plan, 2010]

**State Emergency Declaration Process**
If the emergency or disaster has the potential to exceed the capabilities of counties or state agencies, the Governor will declare a state of emergency for those impacted areas or areas in which the emergency or disaster is anticipated. Such a proclamation by the Governor is also required to activate the full range of federal disaster recovery programs available to the state and a condition for requesting interstate mutual aid through the Emergency Management Assistance Compact (EMAC). The main components of the process for declaring a state of emergency are as follows:

• The public is alerted to and/or warned of an imminent or actual event.

• A county declares a local state of emergency.

• The Director of the Florida Division of Emergency Management (FDEM) determines that the state of emergency is required, and determines the specifics and justification for the declaration.
• The Director of FDEM recommends to the Governor that a state of emergency be declared. The Division prepares an executive order and forwards it to the Executive Office of the Governor for approval.

• The State Emergency Response Team (SERT) initiates protective measures to assist local governments.

• The SERT initiates response and recovery activities to assist impacted counties.

• The State Coordinating Officer notifies the Federal Emergency Management Agency (FEMA) of the imminent or actual event and requests assistance, if necessary. [Florida Comprehensive Emergency Management Plan, 2010]

**Presidential Emergency or Major Disaster Declaration**

Pursuant to Title 44, Code of Federal Regulations, the Governor may request that the President of the United States issue an emergency or a major disaster declaration. Before making a request, the Governor must declare a state of emergency and ensure that all appropriate state and local actions have been taken. [Florida Comprehensive Emergency Management Plan, 2010]
Operational Overview

In order to assure that preparations of CountyName County will be adequate to assist businesses in responding to and recovering from emergencies and disasters, Florida's economic development organizations are tasked with creating and maintaining a comprehensive emergency management program. Economic development organizations are responsible for coordinating with state, county and local government, workforce, tourism and other business support agencies and organizations, as well as private agencies that have a role in emergency management.

The strategic intent is to provide local, state and federal assistance to affected businesses in the State of Florida in a comprehensive, coordinated, unified, and expedited manner to restore business operations and economic stability as quickly as possible.

**BUSINESS, INDUSTRY AND ECONOMIC STABILIZATION RESPONSIBILITIES**

**Enterprise Florida**
- Act as liaison between state government and agencies and economic development organizations.
- Provide economic development organizations with a template for an Emergency Management Plan consistent with the state CEMP.
- Assist economic development organizations with access to business resources from state agencies that support ESF 18.
- Communicate disaster updates to economic development organizations on an as needed basis (e.g., daily, weekly).
- Encourage economic development organizations to participate in conducting Business Damage Surveys.
- Supply economic development organizations with business disaster information and guidance upon request.

**Economic Development Organizations**
- Coordinate with the SBDC’s and county government along with other sources of business damage impact information to ensure that information is provided to the county and ESF 18 regarding the overall physical and economic damages to the business community, as well as business preparedness, response and recovery matters, before, during and after the emergency or disaster.
- Coordinate with county government and other sources of business damage impact information to determine general business needs and to determine the desire and need of the community to request activation of the Florida Small Business Emergency Bridge Loan Program and/or Business Assistance Centers and workshops.
• Coordinate with the local SBDC’s efforts to support public education, press releases, media interviews, and distribution of printed materials that describe the available resources and business assistance initiatives, including Business Assistance Centers and workshops that are being activated in CountyName County.

• Coordinate with SBDC’s to facilitate pre and post disaster event workshops for educating and training businesses in disaster preparation, business continuity planning and recovery.

• Provide business recovery assistance to businesses in all industry sectors in CountyName County through networks of state, regional and local partners.

**Organizational Objectives**

EDOName staff will be assigned emergency management roles and responsibilities based on skills and experience. Economic development organizations will enlist the aid of qualified subject matter experts and operations personnel from the public and private sector at the local, state and federal levels as needed to conduct public education and training programs, staff Business Assistance Center(s), conduct workshops and administer loan and grant programs.

**Operational Objectives**

**Preparedness Objectives**

Preparedness activities ensure that EDOName is ready to react promptly and effectively during an emergency or disaster.

• Develop and maintain an Emergency Management Plan consistent with the state and county CEMPs.

• Educate and train the business community, local and regional organizations, and staff.

• Assist in annual dissemination of disaster planning and safety information for businesses through news releases, electronic advisories, and/or printed materials.

• Develop and maintain contact lists of emergency coordinators in state, county and city government and other designated business support organizations, as well as key media and political contacts.

**Response Objectives**

Response activities are those that must be carried out when an emergency exists or is imminent.

• Actively liaison with CountyName County Emergency Operations Center (EOC), Enterprise Florida and ESF 18 to keep abreast of scope and nature of emergency and response plans and actions.

• Coordinate initial Business Damage Survey Assessment and relay responses to the County EOC and the state ESF-18.
Recovery Objectives
Recovery consists of short- and long-term activities to restore the economic wellbeing of businesses and promote the resumption of normal business activities in the affected area.

- Continue to coordinate assessments of general business impact (in terms of physical damage, employment, lost revenue, lost customers, etc.).
- Coordinate with state, regional and local agencies/organizations to compile estimates of physical damage to CountyName County to determine the need to request activation of the Florida Small Business Emergency Bridge Loan.
- Coordinate with the local SBDC to identify three to four qualified volunteers from local banks to participate on loan committees if the Florida Small Business Emergency Bridge Loan program is activated.
- Coordinate with the local SBDC and federal, state, regional and county agencies to establish a Business Assistance Center and conduct business resource workshops.
- Contact and maintain communications with Enterprise Florida and ESF 18 and local tourism, workforce and business support organizations.
- Participate in long-term recovery activities involving county, state and federal agencies. Coordinate with tourism, workforce and business support organizations.
Implementation Plan

A Detailed Blueprint

The previous chapters have outlined the importance of having an emergency management plan; the responsibilities of various state and local government agencies and organizations; and the overarching objectives at each stage of an emergency/disaster.

The implementation plan provides a detailed blueprint for accomplishing business and economic preparedness, response and recovery objectives, while adhering to the established roles and responsibilities of all involved parties as set forth in the integrated federal, state and county comprehensive emergency management plans.

The implementation plan follows the action phases of an emergency/disaster, as defined in the state comprehensive emergency management plan: preparedness, response and recovery. In review, the action phases can be summarized as follows:

- **Preparedness** activities ensure governments and their residents and visitors are ready to react promptly and effectively during an emergency.

- **Response** includes those actions that must be carried out when an emergency exists or is imminent.

- **Recovery** consists of both short-term and long-term activities. Immediate activities are comprised of restoring vital services and providing emergency assistance to disaster victims. Longer-term activities focus on restoring communities to a normal state.

> [Mitigation activities are not covered, as they generally fall under the auspices of government agencies and organizations, rather than economic development organizations.]

The implementation plan includes checklists; staff assignments; detailed templates; and instructions and guidelines for administering programs and services in each phase. References to forms, templates and examples (highlighted in **green**) are also found throughout the plan. These supporting materials can be found in the Technical Guide.
PREPAREDNESS CHECKLIST

Emergency preparedness activities are necessary to ensure a prompt and effective reaction during an emergency. Preparedness activities should be conducted on an annual basis, at a minimum. Because hurricanes represent the most common emergency/disaster threat in the state of Florida, it is recommended that this checklist be reviewed in May of each year to coincide with the beginning of hurricane season.

☐ Review and update EDOName Comprehensive Emergency Management Plan (CEMP).
☐ Designate staff member to act as liaison with CountyName County Emergency Operations Center (EOC).
☐ Designate staff member to act as liaison with Enterprise Florida, ESF 18 and other state agencies and organizations.
☐ Confirm Emergency Coordinator(s), and record in Emergency Coordinators & Alternate Locations section.
☐ Review and update staff assignments and record in Preparedness Staff Assignments matrix.
☐ Secure up to two alternate emergency office locations and record in Emergency Coordinators & Alternate Locations section.
☐ Maintain a remote office and web server location for data back-up.
☐ Review and update vital office records, including inventory of building contents, insurance coverage, and financial records. Use templates in Technical Guide, if necessary.
☐ Review emergency procedures with staff.
  ☐ Distribute an updated CEMP to all staff
  ☐ Distribute an updated staff emergency contact list/cascade system to all staff
  ☐ Location of fire extinguishers
  ☐ Location of building emergency exits
  ☐ Location of first aid kits
  ☐ Medical Emergency: Dial 911 and notify Emergency Coordinator
  ☐ Fire: Dial 911 and notify Emergency Coordinator
  ☐ Bomb Evacuations: Proceed to assigned location outside building
  ☐ Conduct disaster drill
☐ Confirm each staff member has a family emergency plan in place.
☐ Work with local SBDC to secure two Business Assistance Center locations and record in Business Assistance Center Locations section.
☐ Work with local SBDC to identify members to serve on a Business Assistance Center Volunteer Team and record in Business Assistance Center Locations section.
☐ Work with local SBDC to identify three to four qualified volunteers (e.g., bankers, EDO staff, SBDC staff) to participate on loan committees if the Florida Small Business
Emergency Bridge Loan program is activated and record in **Small Business Emergency Bridge Loan Volunteers** section.
☐ Review and update emergency contact lists and record in corresponding Emergency Contacts sections.

☐ EDOName Staff
☐ EDOName Vital Records
☐ CountyName County & Local Government, Chambers of Commerce
☐ State & Federal Agencies
☐ Businesses
☐ Legislative
☐ Media

☐ Review and update location lists and record in Important Emergency Preparedness Locations section.

☐ CountyName County Emergency Public Shelters
☐ Small Business Development Centers (SBDCs)
☐ Workforce Boards

☐ Inform key businesses and community partners of Business Disaster Plan template (www.floridadisaster.org/business).

☐ Business Contacts
☐ Chambers of Commerce
☐ CountyName County Tax Collector’s Office
☐ Libraries
☐ CountyName County Public Works
☐ CountyName County Administration
☐ CountyName County Emergency Operations Center (EOC)
☐ City Hall
☐ Other local agencies or community contacts

☐ Coordinate with local SBDC to conduct training session with Business Assistance Center Volunteer Team.

☐ Coordinate with CountyName County EOC to prepare 50 “Welcome” kits for FEMA, SBA and other emergency workers that contain the following:

☐ EDOName contact list
☐ CountyName County Emergency Operations Center (EOC) contact list
☐ CountyName County emergency shelter locations
☐ Business Assistance Center (BAC) locations
☐ Business Damage Assessment Survey
☐ CountyName County map
## Preparedness Staff Assignments

</tr>
</thead>
</table>
| Comprehensive Emergency Management Plan (CEMP)  | ▪ Review and update plan as necessary  
▪ Distribute plan to staff  
▪ Inform businesses and key community contacts of Business Disaster Plan template (www.floridadisaster.org/business)  
▪ Follow up with businesses to ensure an emergency plan is in place |                  |
| Emergency Coordinator                           | ▪ Review emergency procedures with staff  
▪ Maintain staff emergency contacts/cascade system  
▪ Secure alternate office locations  
▪ Maintain emergency contact lists  
▪ Maintain location lists  
▪ Coordinate with county EOC to prepare “Welcome” kits |                  |
| Vital Records                                   | ▪ Maintain inventory of building contents  
▪ Review insurance coverage and make copies of policy  
▪ Make copies of financial records |                  |
| Data Back-up                                    | ▪ Maintain a remote office and web server location  
▪ Back up all computer files and print critical information |                  |
| State Agency Liaison                            | ▪ Provide communication link between Enterprise Florida, ESF 18 and EDOName  
▪ Confirm State Agency Liaison is on Enterprise Florida and ESF 18 distribution lists  
▪ Participate in disaster update communication events (conference calls, meetings, etc.) |                  |
| County Emergency Operations Center Liaison      | ▪ Provide communication link between EOC and EDOName  
▪ Confirm EOC Liaison is on EOC distribution lists  
▪ Participate in EOC training  
▪ Obtain security badge for EOC Liaison to permit access to Emergency Operations Center |                  |
| Business Assistance Center                      | ▪ Coordinate with SBDC to secure Business Assistance Center locations  
▪ Coordinate with SBDC to identify and recruit Business Assistance Center Volunteer Team  
▪ Coordinate with SBDC to train Business Assistance Center Volunteer Team members |                  |
| Small Business Emergency Bridge Loan            | ▪ Coordinate with SBDC to identify and recruit three to four volunteers for Small Business Emergency Bridge Loan Bank Review Committee |                  |
EMERGENCY COORDINATORS & ALTERNATE LOCATIONS

Emergency Coordinator(s)
EDOName Emergency Coordinators are responsible for selecting and organizing staff for emergency operations and will liaison with emergency response personnel (fire, police) while evacuating staff during an emergency.

Emergency Coordinator 1
   Cell #

Emergency Coordinator 2
   Cell #

Office Locations
In the event EDOName office cannot be reopened immediately following an emergency or disaster, arrangements have been made to relocate the office to one of the following locations.

Emergency Office Location 1
   Address
   Phone/Fax (if applicable)

Emergency Office Location 2
   Address
   Phone/Fax (if applicable)

Emergency Office Location 3
   Address
   Phone/Fax (if applicable)
BUSINESS ASSISTANCE CENTER LOCATIONS

A Business Assistance Center will be opened if the scope of the emergency or disaster warrants providing recovery programs and services to the business community. Consideration should be given to locating the center near a designated Disaster Recovery Center or other public relief center.

Locations

Business Assistance Center Location 1
Address
Phone/Fax (if applicable)

Business Assistance Center Location 2

**RESPONSE CHECKLIST**

Emergency response activities should be conducted as soon possible once an actual or imminent emergency is announced.

- EOC Liaison attends emergency briefing at CountyName County EOC.
- State Agency Liaison attends ESF 18/Enterprise Florida’s pre-emergency conference call.
- Conduct pre-emergency staff meeting.
  - Review and update staff assignments and record on Response Staff Assignments matrix.
  - EOC Liaison briefs staff regarding CountyName County EOC response activities.
  - State Agency Liaison briefs staff regarding state response activities.
- Ensure data has been backed up at a remote location and critical information has been printed and is in a secure location.
- Ensure copies of vital information, such as inventory of building contents, insurance coverage/policy and financial records have been stored in a secure location.
- Confirm alternate emergency office locations and update Emergency Coordinators & Alternate Locations if necessary.
- Notify media of alternate emergency office locations.
- Pack an office emergency supply kit as follows:
  - Copy of the EDOName CEMP for each staff member
  - 50 “Welcome” kits for FEMA, SBA and other emergency workers
  - Batteries
  - Camera and film
  - Camcorder and tapes/DVDs
  - Cell phones and chargers
  - Disposable plates, cups, utensils, napkins, etc.
  - Extension cords / surge protectors
  - Food supplies (non-perishable items)
  - Fax machine
  - First aid kit
  - Flashlights
  - Generator
  - Laptop computers, battery packs, power cords and Internet cables
  - Manual can opener
  - Microwave
  - Paper towels
  - Radio
  - Trash bags
  - Wipe-boards for messages
- Move office emergency supply kit to alternate emergency office location.
☐ Coordinate with SBDC to contact Business Assistance Center Volunteer Team and put members on alert.
☐ Coordinate with SBDC to confirm Business Assistance Center locations are available.
☐ Coordinate with SBDC and CountyName County EOC to activate Emergency Business Hotline.
☐ Notify media of Emergency Business Hotline.
☐ Email disaster warning bulletin and Emergency Business Hotline number to businesses, using Disaster Advisory Notice example.
☐ Launch disaster preparedness web page on EDOName website. Use the example provided in the Technical Guide if needed.
☐ Post emergency notices on disaster preparedness web page.
☐ Follow up with businesses to confirm an emergency plan is in place.
☐ Send staff home to secure personal property after office assignments are completed.
## Response Staff Assignments

</thead>
</table>
| Comprehensive Emergency Management Plan (CEMP) | • Distribute plan to staff  
• Follow up with businesses to ensure an emergency plan is in place |  |
| Emergency Coordinator | • Conduct pre-emergency staff meeting  
• Confirm alternate office locations  
• Pack an office emergency supply kit and move it to alternate office location |  |
| Vital Records | • Ensure copies of building contents inventory, insurance coverage/policy and financial records are in a secure location |  |
| Data Back-up | • Back up all computer files on remote server  
• Print critical information and keep in a secure location |  |
| State Agency Liaison | • Participate in disaster update communication events (conference calls, meetings, etc.)  
• Brief staff |  |
| County Emergency Operations Center Liaison | • Participate in EOC emergency briefing  
• Obtain security badge for EOC Liaison to permit access to Emergency Operations Center (if not already done)  
• Brief staff |  |
| Business Assistance Center | • Coordinate with SBDC to confirm Business Assistance Center locations  
• Coordinate with SBDC to contact Business Assistance Center Volunteer Team and place on alert  
• Coordinate with SBDC and county EOC to activate Emergency Business Hotline |  |
| Public Awareness / Communications | • Communicate Emergency Business Hotline number to media  
• Email disaster warning bulletin and Emergency Business Hotline number to businesses  
• Inform media of alternate office locations  
• Launch disaster preparedness web page on EDOName website  
• Post emergency notices on EDOName website |  |
RECOVERY CHECKLIST

Emergency recovery activities are designed to restore vital services, provide emergency assistance to disaster victims, and restore communities to a normal state. These activities should commence **within 24 hours or as soon as safely possible** once an emergency or disaster has occurred.

- Executive Director/President initiates staff cascade system.
- EOC Liaison attends emergency briefing(s) at CountyName County EOC.
- State Agency Liaison attends ESF 18/Enterprise Florida’s post-emergency conference call(s).
- Conduct post-emergency staff meeting (can be a conference call).
  - EOC Liaison briefs staff regarding CountyName County EOC recovery activities.
  - State Agency Liaison briefs staff regarding state recovery activities.
  - Review and update staff assignments and record on **Recovery Staff Assignments** matrix.
- Evaluate office damage and determine whether office can be re-opened.
- Notify insurance company of damage, if applicable.
- Open alternate emergency office location, if necessary.
- Confirm activation of Emergency Business Hotline.
- Reinforce media of Emergency Business Hotline number.
- Resend disaster warning bulletin email and Emergency Business Hotline number to businesses, using **Disaster Advisory Notice** example.
- Update emergency notices on EDOName website.
- Coordinate with county EOC and SBDC to facilitate completion of **Business Damage Assessment Surveys**.
  - Respond to calls to the Emergency Business Hotline
  - Respond to emails from impacted businesses
  - Conduct door-to-door business visits
- Coordinate submission of Business Damage Assessment Surveys to county EOC, ESF 18 and Enterprise Florida.
- Using data gathered from Business Damage Assessment Surveys and polling other government and partner organizations, determine severity of emergency or disaster damage and assess local response capabilities. Use checklist below to prompt state of emergency declaration(s), from local to presidential, as the situation warrants.
  - Confirm that the County has declared a local state of emergency (LSE).
  - Confirm that the County has activated the Statewide Mutual Aid Agreement (SMAA).
  - Confirm that the County has requested that the Governor declare a state of emergency for the impacted area(s).
  - Request a copy of the Executive Order declaring a state of emergency.
☐ Confirm that the Governor has requested a presidential emergency declaration or major disaster declaration.

☐ Request a copy of the presidential emergency declaration or major disaster declaration.
☐ Submit a letter to legislative delegation requesting that the Governor initiate a budget amendment to fund the Small Business Emergency Bridge Loan Program. Letter may be drafted using the sample Legislative Letter. (Letter can be submitted by EDOName, CountyName County EOC, or both.)

☐ Contact DEO or ESF 18 to request activation of the Small Business Emergency Bridge Loan program (if appropriate).

☐ Coordinate with SBDC to conduct conference call or meeting with Small Business Emergency Bridge Loan volunteer committee to confirm availability and participation.

☐ Coordinate with ESF 18 to obtain approved Small Business Emergency Bridge Loan Application (including Spanish version).

☐ In coordination with SBDC, distribute Small Business Emergency Bridge Loan Application to affected businesses.

☐ Publicize availability of disaster relief programs and Small Business Emergency Bridge Loan program to businesses through media, website, chambers of commerce, and local government and partner organizations.

☐ In coordination with SBDC, determine necessity of opening a Business Assistance Center.

☐ Coordinate with SBDC to set up Business Assistance Center using following guidelines and Sample Business Assistance Center Flow Chart templates (if applicable).

☐ In coordination with SBDC, conduct on-site meeting for Business Assistance Center staff and volunteers.

☐ In coordination with SBDC, open Business Assistance Center within 72 hours of determining need.

☐ In coordination with SBDC, publicize opening of Business Assistance Center through media, website, chambers of commerce, and state and local government and partner organizations, using Business Assistance Center Fact Sheet and Business Assistance Center FAQs.

☐ In coordination with SBDC, conduct business resource workshop(s) for business community using Business Disaster Recovery Workshop sample announcement and agenda.

BUSINESS ASSISTANCE CENTER

A Business Assistance Center (BAC) is designed to assist businesses with disaster recovery efforts. The BAC will serve as a one-stop center within CountyName County where business owners may apply for assistance from the Federal Emergency Management Agency (FEMA), Small Business Administration (SBA), Small Business Development Centers (SBDC), Workforce Florida (WFI), Department of Economic Opportunity (DEO), Florida Retail Federation (FRF), and Enterprise Florida (EFI).

BUSINESS ASSISTANCE CENTER | ADMINISTRATION

Location
The Business Assistance Center (BAC) should be located as near to the area(s) most directly impacted by the disaster event as possible. A facility that is near a designated Disaster Recovery Center or other public relief center is preferred if that facility can provide the necessary accommodations as outlined below.

It is recommended that the center be obviously and distinctly identified. Ensure that individual counseling that takes place there is adequately available to employers and does not distract from the mission of the assistance center that is set up to provide assistance to individual citizens by federal and state government agencies.

Facility
Ideally, the Business Assistance Center facility should have enough space to accommodate:

- Reception area
- Individual offices to facilitate private conversations with business owners
- Conference room for team meetings and overflow
- Document storage area
- Space for copier and fax machine

Organization
1. Business Assistance Center Manager: [Insert staff name]

   This individual is responsible for managing and coordinating the operations of the center. He or she facilitates the delivery of services by representatives from FEMA, U.S. Small Business Administration, Small Business Development Centers and other organizations that support the business and economic recovery of the affected area.

   The manager has authority over general operations and personnel. The manager should conduct daily briefings with the staff to review issues, new information, current objectives, and answer questions. The manager is responsible for the overall image, quality, and support being provided by the center.

2. Reception and Telephone Response Staff: [Insert staff name]

   The reception and telephone staff are the first point of contact for small business owners. They are responsible for directing small business owners to the proper resource to address their issue(s) and provide necessary guidance. The reception and telephone staff should
keep an updated list of all individuals working in the area with contact information. Reception and telephone staff are also responsible for providing limited administrative support to Business Assistance Center personnel. This may include copying and packaging of documents for distribution to small business owners who request assistance.

3.

Staff & Organization Representatives [Insert staff name(s)]

*No member of the support team is permitted to participate in any type of business solicitation during his or her tenure in the Business Assistance Center.*

Business Assistance Center staff and organization representatives should possess the following skills and attributes:

- **Patience**: Staff members must be willing to listen, understand, and be compassionate toward the small business owners and individuals they are trying to assist.

- **Honesty**: Tell the truth. If you do not know whom to call, note the name and number of the person requesting assistance and establish a deadline for a response.

- **Communication Skills**: Share issues, concerns, knowledge, ideas, and lessons with other team members during the daily briefing. Introduce the person you are working with to other team members as necessary. Ask for help if needed.

- **Subject Matter Knowledge**: Team members should become familiar with the materials in the small business package provided to small business owners and individuals. Each team member should possess contact information for critical services that might be useful to the small business community.

**Proposed Team Members**

**Small Business Administration (SBA) Representatives**: One of the key members of the support team is the Small Business Administration. Two or more representatives will be needed (based on volume). These individuals should be very knowledgeable concerning the SBA loan program and should possess all appropriate forms and related financial support information. Further, the representatives should understand the FEMA grant programs and, where appropriate, the Florida Small Business Emergency Bridge Loan program.

**County Loan Specialists – Bridge Loan Program**: Two or more (based on volume) individuals with detailed knowledge of the Florida Small Business Emergency Bridge Loan program should be available in the center. These individuals should also be familiar with the SBA loan program and FEMA grant programs.

**County Building Regulation and Recovery Specialist (if available)**: This individual will provide advice and counsel on issues that directly involve CountyName County regulations and programs, including local permit issues, taxes, fees, support, and emergency regulations as they pertain to the local county.

**General Business Recovery Specialists**: Two or more (based on volume) individuals who are skilled in understanding overall business continuity and recovery operations. These individuals will act as an advocate of the small business owner by listening and sharing their knowledge in managing recovery challenges. They will also escalate issues as needed.

Each General Business Recovery Specialist should have general knowledge in as many of the following areas as possible:

- FEMA registration
- SBA loan requirements and application process
• Documentation/record keeping (tracking information for insurance, taxes, etc.)
• Debris/waste removal
• Insurance
• Real estate (landlord/tenant issues)
• Building and safety permit process
• Qualified contractor information
• Department of Health concerns
• IRS considerations
• Special funding offers at the local level
• Media-related issues

General Business Recovery Specialists may be recruited from:
• Small Business Development Centers
• SCORE
• Economic development organizations
• Universities and community colleges
• Non-Profit associations and foundations
• Business continuity planners
• Veterans groups
• Retired business professionals
• Private sector business – corporate humanitarian relief (Fortune 500)
• Regional Workforce Boards
• Chambers of Commerce
• Tourism boards
• Members of EDOName board of directors or other identified business leaders

**Information Dissemination**
The Business Assistance Center should have the following types of information available (where applicable) to small business owners seeking assistance:
• FEMA loans, grants and other programs and services
• SBA loans, grants and other programs and services
• Small Business Emergency Bridge Loan Application
• Debris/waste clean-up information
• Insurance information
- Contractor information
- Permitting information
- Public health services
- IRS information
- Unemployment information
- General CountyName County contact information
---

**SAMPLE BUSINESS ASSISTANCE CENTER FLOW CHART**

**Walk-in**

- Does the applicant have an appointment?
  - Yes: Contact appropriate staff member.
  - No: Schedule appointment with appropriate staff member.

---

**Phone Call**

- Talk/Meet with next available Business Liaison to determine assistance needs.
  - Is the program or service offered by the BAC?
    - Yes: End call and file survey as No Action.
    - No: File Original alphabetically in Master File.

---

**The applicant needs one of the following:**
- SBA Disaster Recovery Loan
- SBDC Counseling
- FEMA Grant

---

**Schedule appointment with appropriate staff member.**

---

**Provide bank contact information.**

---

**Note bank contact on survey. File as Referral.**

---

**Make Copy of survey and distribute to staff referral. File Original alphabetically in Master File.**

---

Appendices

Plan appendices are for reference purposes and serve to define acronyms and terms used in the EDOName Comprehensive Emergency Management Plan. The appendices also include a robust list of federal, state and county agencies and organizations that directly provide emergency support and services, or provide vital information regarding an emergency or disaster.

A broader listing of acronyms and definition of terms can be found in the Florida Comprehensive Emergency Management Plan.

The appendices are presented as follows:

- Acronyms
- Glossary
- References
# Acronyms

The following is an abbreviated list of the acronyms used in this document and several that may be encountered in other emergency management plans and documents. A more comprehensive list of acronyms may be found in the Florida Comprehensive Emergency Management Plan.

GLOSSARY

The following definitions are for terms used in this document and terms that may be encountered in other emergency management plans and documents. A more comprehensive list of terms can be found in the Florida Comprehensive Emergency Management Plan.

Alternate Site: A site held in readiness for use during an emergency or disaster to maintain the business continuity of an organization’s mission critical activities. The term applies equally to office or technology requirements.

Backup: A process, by which data, electronic or paper based, is copied in some form to be available if the original data is lost, destroyed or corrupted.

Base Camps: Temporary facilities located near the disaster area to accommodate emergency workers.

Business Assistance Center (BAC): One-stop center where business owners may apply for assistance from appropriate state agencies.

Business Disaster Planning: The process of developing an approved set of arrangements and procedures to insure a business can respond to a disaster and resume its critical business functions within a required time-frame objective.

Business Income Coverage: Insurance coverage for loss of business income that resulting from a suspension of business operations due to damage to a building or personal property caused by a covered cause of loss.

Business Income for Dependent Properties: Coverage for loss of business income due to damage to a building or personal property at another business that said business is dependent on for operations. The four types of dependent properties are businesses that furnish materials or services for said business, businesses that purchase material or services from said business, businesses that manufacture products for said business’ customers, and leader locations (e.g., an anchor store that attracts customers to said business).

Call Tree: A structured cascade process that enables a list of persons, roles and/or organizations to be contacted as a part of an information or plan invocation procedure.

Cascade System: A system whereby one person or organization contacts others who in turn initiate further contacts as necessary.

Civil Authority Insurance: Insurance that covers loss of income if access to said business is prohibited by civil authorities because of damage to other property as a result of a covered cause of loss. Coverage is provided for up to two consecutive weeks from the date of the civil authority action.

Community Relations Team: Primary functions are to identify and report local unmet human needs and to inform disaster victims of disaster assistance programs.

Contingency Plan: A specific planned response to an event that is highly unlikely, but is possible, to occur.

Cyclone: An area of low atmospheric pressure with winds blowing around it, counterclockwise in the Northern Hemisphere, clockwise in the Southern Hemisphere.
**Damage Assessment:** The process of assessing the financial/non-financial damage following a disaster. It usually refers to the assessment of damage to physical assets (e.g. vital records, building, sites, technology) to determine what can be salvaged or restored and what must be replace.

**Data Mirroring:** A process whereby critical data is copied instantaneously to another location so that it is not lost in the event of a disaster.

**Denial of Access:** The inability of an organization to occupy its normal working environment; often due to an emergency services policy.

**Disaster:** A sudden, unplanned calamitous event that causes great damage or loss.

**Disaster Field Office:** Once a Presidential Declaration is received, state and federal agencies co-locate in a Disaster Field office.

**Disaster Mitigation:** Activities taken to eliminate or reduce the level of risk to life and property from hazards.

**Disaster Preparedness:** Activities, programs, and systems developed prior to a disaster that are used to support and enhance mitigation, emergency response, and recovery.

**Disaster Recovery Centers:** Set up within the disaster area to provide information to the victims of a disaster on the complete range of disaster assistance programs available to them.

**Emergency:** Any natural or man-caused situation that results in or may result in substantial injury or harm to the population or substantial damage to or loss of property.

**Emergency Operations Center (EOC):** A facility that serves as a central location for the coordination and control of all emergency preparedness and response activities.

**Emergency Public Information:** Information that is disseminated primarily in anticipation of an emergency or at the actual time of an emergency; in addition to providing information, frequently directs actions, instructs, and transmits direct orders.

**Emergency Support Function:** A functional area of response activity established to facilitate coordinated federal delivery of assistance required during the response phase to save lives, protect property and health, and maintain public safety. These functions represent those types of federal assistance that the state likely will need most because of the overwhelming impact of a catastrophic event on local and state resources.

**Essential Service:** A service without which a building would be disabled. Often applied to utilities (water, gas, electricity, etc.).

**Evacuation:** Organized, phased and supervised dispersal of civilians from dangerous or potentially dangerous areas, and their reception and care in safe areas.

**Evacuation Order:** Once issued, a **mandatory** order for evacuation under law in the State of Florida.

**Exercise:** An announced or unannounced execution of the business continuity plan intended to implement existing plans and/or highlight the need for additional plan development. A way of testing part of a business continuity plan, an exercise may involve invoking the business continuity plan procedures.
**Federal/State/Local Damage Assessment:** Once the state has received the preliminary incident damage assessment information, the state and the federal management agency will initiate a joint damage assessment with the affected county government.

**First Responder:** Local police, fire, and emergency medical personnel who first arrive on the scene of an incident and take action to save lives, protect property, and meet basic human needs.

**Hurricane:** A tropical cyclone with winds of 74 mph or more.

**Hurricane Advisory:** A method for disseminating hurricane and storm data to the public every six (6) hours.

**Hurricane Eye:** The relatively calm area near the center of the storm. In this area winds are light and sky often partly covered by clouds.

**Hurricane “Season”:** The portion of the year having relatively high incidence of hurricane. In the Atlantic, Caribbean and Gulf of Mexico it is usually regarded as the period from June through November.

**Hurricane Warning:** A warning that one or both of the following dangerous effects of a hurricane are expected in a specified coastal area in 24 hours or less:

**Hurricane Categories:**

- **Category 1** – 74-95 mph sustained winds
- **Category 2** – 96-110 mph sustained winds
- **Category 3** – 111-130 mph sustained winds
- **Category 4** – 131-155 mph sustained winds
- **Category 5** – above 155 mph sustained winds

**Hurricane Watch:** An announcement for specific areas that a hurricane or an incipient hurricane condition poses a threat to coastal and inland communities.

**Lead Agency:** The federal department or agency assigned lead responsibility under U.S. law to manage and coordinate the Federal response in a specific functional area. There are two lead agencies: the FBI for Crisis Management, and FEMA for Consequence Management. Lead agencies support the overall Lead Federal Agency (LFA) during all phases of the response.

**Levels of Activation:**

- **Level 1** – Full Scale Activation
  All state organizations report to the State Emergency Operations Center for 24-hour activities

- **Level 2** – Partial Activation of State Emergency Response Team
  A limited activation of core Emergency Support Functions and personnel at the State Emergency Operations Center.
Level 3 – Monitoring Activation
At this level, the division communication’s personnel provide a steady stream of information to state and local agencies.

Liaison Officer: An agency official sent to another agency to facilitate interagency communications and coordination.

Logistical Staging Area: Serves to receive, classify, store, transport relief equipment and supplies procured by the state during a disaster.

Mission Critical Activities (or functions): The critical operational and/or business support activities (either provided internally or outsourced) without which the organization would quickly be unable to achieve its business objectives(s), e.g. services and/or products.

Mobile Standby: A transportable operating environment – often a large trailer – complete with office facilities and computer equipment that can be delivered and set up at a suitable site at short notice.

National Hurricane Center (NHC): National Weather Service office in Coral Gables, FL, that tracks and forecasts hurricanes and other weather in the Atlantic, Gulf of Mexico, Caribbean Sea, and parts of the Pacific.

Presidential Emergency: Public Law 100-707 allows for federal assistance through this Declaration. The governor requests this assistance if the situation meets the criteria for a declaration.

Public Information Officer: This headquarters or the field office official is responsible for preparing and coordinating the dissemination of public information in cooperation with other responding federal, state, and local agencies.

Rapid Impact Assessment Teams: These teams may be deployed after a disaster. They assess the immediate human needs and damages to the community’s infrastructure.

Rapid Response Teams: State and local emergency workers who are deployed into the impacted area to augment impacted local operational capabilities.

Recovery: Recovery, in this document, includes all types of emergency actions dedicated to the continued protection of the public or to promoting the resumption of normal activities in the affected area.

Reverse Cascade System: A reversal of the cascade system that enables the whereabouts and safety of personnel to be established.

Risk Analysis: The process of identifying the risks to an organization, assessing the critical functions necessary for an organization to continue business operations, defining the controls that are in place to reduce organization exposure, and evaluating the cost for each such control.

Risk Categories: Risks of similar types are grouped together under key headings; otherwise know as “risk categories”. These categories include reputation, strategy, financial, investments, operation infrastructures, business, regulatory compliance, people, technology and knowledge.

Risk Mitigation: Measures taken to reduce exposures to risks.
SBDCs: Small Business Development Centers (SBDCs) provide management assistance to current and prospective small business owners. SBDCs offer one-stop assistance to individuals and small businesses by providing a wide variety of information and guidance in central and easily accessible branch locations.

Vital Record Location: A designated storage location for holding vital records. Must be secure and away from the normal business site.
REFERENCES

The Florida Division of Emergency Management (FDEM) is an excellent resource for emergency and disaster planning. The website provides a wealth of information and is a good beginning reference point: www.floridadisaster.org.

Technical Guide

The Technical Guide provides examples as well as working forms and templates that can be utilized to build emergency planning websites, communicate with constituencies, and streamline and expedite data gathering processes and program administration. The documents in the Technical Guide are arranged in the order in which they are first mentioned in the EDOName CEMP, and include the following:

1. Inventory of Building Contents
2. Insurance Coverage
3. Disaster Advisory Notice (sample template)
4. Disaster Preparedness Web Page (sample template)
5. Pre-Disaster Building Survey
6. Post-Disaster Press Release (guidelines)
7. Business Damage Assessment Survey
   i. English
   ii. Spanish
   iii. Creole
8. Legislative Letter (sample template)
9. Small Business Emergency Bridge Loan Program (examples)
   ▪ Fact Sheet
   ▪ Hoja de Datos (Spanish version Fact Sheet)
   ▪ Provisions
   ▪ Administration
   ▪ Procedures
   ▪ Application
   ▪ Promissory Note
   ▪ Use of Proceeds for Business Purposes
   ▪ Assignment of Proceeds
   ▪ Settlement Statement
   ▪ Payment Coupon
   ▪ Bank Closing Checklist
   ▪ Bank Review Committee Meeting Minutes (sample template)

Small Business Emergency Bridge Loan Applications and related materials will be issued for each specific disaster. The forms provided in this Technical Guide are for example purposes only. For the most current documents, visit www.floridadisaster.org.

10. Disaster Relief Programs for Businesses Fact Sheet
11. Business Assistance Center Fact Sheet
12. Business Assistance Center FAQs
13. Business Disaster Recovery Workshop (sample template)

Insurance may be one of the few consolations a business owner may have after a disaster. Here are some tips to make dealing with insurance companies less confusing.

**Preparedness**
- **Before** an emergency or disaster, take photographs or videos of your building and its contents.
- Prepare a list of insured property and items. The list should include a description of the item, date of purchase or age, cost at time of purchase, and estimated replacement cost. Keep canceled checks or receipts for insured property and items to show the adjuster in the event you need to file a claim.
- Obtain a detailed estimate for repairs for possible damages **before** a disaster occurs.
- Ask your insurance agent about flood insurance. Flood damage caused by rising water is covered under flood insurance, which is required in some areas if you have a mortgage. The federal government underwrites flood insurance, but most insurance adjusters can handle the claims.
- Check your policy(ies) or consult your insurance agent to determine whether your policy will pay for tree removal in the event one should fall on your business structure.

**Recovery**
- It may take days for an insurance adjuster to make an appointment to visit your business. Be patient.
- Before the adjuster arrives, prepare a list of damaged and destroyed property. The list should include a description of the item, date of purchase or age, cost at time of purchase and estimated replacement cost. If you have canceled checks or receipts for those items, collect them to show the adjuster.
- Follow up with videos or photographs of damaged areas.
- **Only make those repairs that are essential** to prevent further damage to your business.
- **Do not make permanent repairs** without consulting your insurance agent.
- Keep all receipts for all work done on your business.
- Be aware of unsolicited and uncertified repair and recovery firms who may approach you immediately following an emergency or disaster.
Use this form to discuss your insurance coverage with your agent. Having adequate coverage now will help you recover more rapidly from an emergency or disaster.

**DISASTER ADVISORY NOTICE**

*EDOName provides information before, during, and after an emergency or disaster.*
*Please take a few moments to review the important information provided below.*

Join us for a post-disaster conference call to assess the nature and severity of damages to businesses in CountyName County, and to determine whether there is a need to activate Business Assistance Centers to provide relief programs to the business community.

[Insert Date/Time (duration)]

[Insert Call-in Number & Passcode (if required)]

**For Additional Information:**

[Insert EDO Contact Name]

[EDO Contact Number]

**Pre-Disaster Preparation**

EDOName has established a Disaster Preparedness [insert active link] page on its website. This page provides valuable forms, checklists and resources to prepare you for an emergency. Please take a few minutes to review the information provided before [Insert name of emergency/disaster] impacts our area to ensure that you can quickly react once the threat has passed.

Print a copy of the Business Damage Assessment Survey [insert active link] prior to [Insert name of emergency/disaster] so that you have it available to quickly assess any damage to your business. By reporting your damage to us, we can provide this information to local, state and federal officials to determine the level of financial assistance required in the CountyName County. Your completed survey can be returned to EDOName via fax: [xxx.xxx.xxxxx] or email [xxx@xxx].

This is sample content for a Disaster Preparedness web page to add to your website. Customize with logo, contact information and the nature of the emergency or disaster, if necessary.

Disaster Preparedness

Preparation and planning are key elements in keeping Florida open for business after a disaster. An emergency plan provides guidance during an emergency, clearly defining objectives, roles and responsibilities and accelerating the resumption of normal business activities.

This page provides valuable tools and resources to help your business prepare for, respond to, and recover from an emergency or disaster. Please take a few minutes to review the information provided to ensure that you can quickly react once a threat has passed.

Preparedness activities ensure businesses are ready to react promptly and effectively during an emergency. Preparedness activities should be reviewed on an annual basis, at a minimum. Preparedness activities to consider:

- conduct training for emergencies
- conduct drills to test emergency plans
- obtain and maintain emergency equipment and facilities
- create a business continuity plan
- review and update vital office records (inventory of business equipment, insurance coverage, financial records, etc.)

Response includes those actions that must be carried out when an emergency exists or is imminent. Response activities to consider:

- notify staff and key off-site executives of emergency situation
- assess and document business damage (existing physical damage and projected economic damages)
- activate emergency facilities

Recovery activities are conducted to restore vital services, such as electrical power, water, and sewer systems, clear debris, and restore communities to a normal state by assisting business owners in repairing or rebuilding their businesses. Recovery activities to consider:

- make immediate/temporary repairs necessary to secure property and ensure safety
- file insurance claims
- visit Business Assistance Center and apply for business disaster assistance (loans, grants, etc.)
- make permanent repairs to business property

EDOName is responsible for the safety and protection of itself and the business community in the event of a disaster. If you wish to be added to our disaster updates distribution list, and/or if you have additional questions, please contact us:

These are some press release guidelines that may be helpful if a business needs to inform the public about business damages/closure and/or injuries/fatalities.

For Immediate Release
[Insert Date]    Contact: [Insert Company Name]
[Insert Time]    [Insert Company Contact]
Phone: [Insert Contact Phone #]
Email: [Insert Contact Email]

[Insert Headline] be brief and to the point

Page 63 -

Provide a description of what happened to the company. Include concrete facts: date, time, location, damages, number of injuries, etc. Communicate who, what, when, where, why, and how. Then consider the following points, if pertinent. What is the actual news? Why this is news? The people, products, items, dates and other things related with the news. The purpose behind the news.

Describe action being taken by the company. Company is responding to the situation by… Police/fire/FBI are assisting the company to contain situation/conduct an investigation/determine further actions, etc. Company is notifying stakeholders/employees/public via website/media releases, etc. The company is establishing a family support center/other outreach.

In the meantime, the company remains open for business/is closed and is temporarily forwarding telephone calls to xxx.xxx.xxxx, is resuming business operations on [insert date facility will open] at an alternate facility located at [insert location].

Additional information will be released during a press conference scheduled for/through another media release/on the company website, etc. at [insert date/time] once it becomes available.
Include a paragraph to describe the company, its core business and the business policy.

At the end of this section point to the company website. The link should be the exact and complete URL.
The information provided in this survey will be shared among various state and local agencies to expedite implementation of appropriate disaster relief programs for businesses. This survey assists the State with determining if relief services for businesses, including the Small Business Emergency Bridge Loan, should be activated. If activated, Small Business Emergency Bridge Loans are for physical damage to a business only.

1. What type of business are you in?
   - Manufacturing
   - Wholesale
   - Service
   - Retail
   - Transportation
   - Tourism *
   - Other

* If you are a tourism-related business (e.g., attraction or accommodation), please be sure to answer the additional questions at the end of this survey.

2. Are you currently open for business? □ Yes □ No □ Open in alternate location
   If No, when do you anticipate reopening? □ Within 30 days □ 30 – 60 days □ 60+ days □ Will not reopen

3. Did your business suffer damage?
   □ Yes □ No
   If yes, was the damage □ Physical □ Economic □ Both physical & economic

4. Did you or will you lose business due to the emergency/disaster? □ Yes □ No

5. Do you have an estimate of the cost to your business due to [insert name of emergency/storm/disaster]? □ Yes □ No
   If Yes, how much? □ $0 □ $1 - $100K □ $100K - $250K □ $250K - $500K □ $500K+

6. How many employees (FT & PT) do you currently have? ________

7. Did you lay off employees, or will you lay off employees? □ Yes □ No
   If Yes, number of temporary lay-offs ________
   Expected lay-off period

8. Have you registered with FEMA? □ Yes □ No
   If No, please visit www.disasterassistance.gov to register.

9. Other key factors hindering business operations.
   - Access to business
   - Debris removal
   - Product supply
   - Financial/business loans
   - Short-term capital
   - Long-term capital
   - Training/personnel
   - Water damage
   - Insurance settlement
   - Employees’ transportation needs
   - Customer base
   - Construction/contractor

10. If your business space is not usable, what type of space is needed?
   - Office
   - Industrial
   - Flex
   - Retail
   - None

5) ¿Puede calcular aproximadamente el costo del daño que esta emergencia o desastre causó en su negocio?

Sí      No

En caso afirmativo, determine un monto:

$0  $1-$100,000  $100,000-$250,000  $250,000-$500,000  Más de $500,000

6) ¿Cuántos empleados trabajan actualmente (de jornada completa y de jornada parcial)?

7) ¿Ha despedido o despedirá a algún empleado?

Sí      No

En caso afirmativo, proporcione la cantidad de despidos temporarios:

Periodo de desempleo estimado:

8) ¿Se registró en la FEMA (Agencia Federal para el Manejo de Emergencias)?

Sí      No

Si no lo hizo, ingrese a www.disasterassistance.gov para registrarse.

9) Otros factores clave que obstaculizan la actividad comercial:

Acceso al negocio       Extracción de escombros       Suministro de productos
Préstamos comerciales o financieros       Capital a corto plazo       Capital a largo plazo
Capacitaciones/Empleados       Abastecimiento de agua dañado       Liquidación del seguro
Transporte de empleados       Base de clientes       Necesidades relacionadas con la construcción o con el contratista

10) Si el espacio físico de su negocio no es utilizable, ¿qué tipo de espacio necesita?

Oficina      Industrial       Flexible       Minorista Ninguno

Metros cuadrados requeridos:

Tiempo necesario:

Permanentemente:

Sí      No

11) ¿Desea programar una cita para acceder a los programas y servicios de asistencia para negocios?

Sí      No
Analice los tipos de asistencia que le interesaría recibir para su negocio:

**Emergency Bridge Loan [Préstamo puente de emergencia]:** préstamo a corto plazo de hasta $25,000, disponible para propietarios de pequeñas empresas que posean entre 2 y 100 empleados, que hayan estado en actividad comercial durante mínimamente un año completo y que presenten daño físico verificable en su negocio. Los préstamos puente no están disponibles para solventar daños económicos ocasionados por disminución de ventas o por cierre temporal del negocio.

**SBA Physical Disaster Business Loans [Préstamos a negocios por desastres físicos de la SBA]:** los préstamos están disponibles para los negocios que reúnan los requisitos necesarios y de cualquier tamaño, que incursionaron pérdidas no aseguradas de hasta $2,000,000, y tienen como meta reparar o sustituir la propiedad comercial hasta alcanzar las condiciones que presentaba antes del desastre. Los préstamos se pueden utilizar para sustituir o para reparar propiedades inmobiliarias, equipamientos, instalaciones e inventarios y mejoras sobre un inmueble arrendado.

**SBA Economic Injury Disaster Loans (EIDLs) [Préstamos para sustentar daños económicos ocasionados por desastres (EIDL) de la SBA]:** los préstamos de hasta $2,000,000 están disponibles para pequeñas empresas que deben soportar daños económicos como resultado directo de un desastre. Estos préstamos de capital circulante son otorgados a empresas que no puedan disponer de ningún otro crédito para poder pagar gastos de operación ordinarios y necesarios que hubieran podido ser solventados si el desastre no hubiera ocurrido.

**Small Business Development Center Business Counseling [Asesoramiento financiero del Centro para el Desarrollo de la Pequeña Empresa]:** analistas financieros certificados le proporcionarán asesoramiento financiero general para que pueda acceder a los préstamos de la SBA tradicionales.

*Responda las siguientes preguntas solo si su empresa está relacionada al turismo (atracciones u hospedaje)*.

Soumët Fômilé Sa a
This is a sample draft letter to a legislator to request funding for the Small Business Emergency Bridge Loan program. Customize with name, address, and the nature of the emergency or disaster to fit the situation.

Date

The Honorable Legislator Name
Representative/Senator, State of Florida
Address
City, State Zip

Dear Representative/Senator,

I am writing to you on behalf of the business community in CountyName County. [Name of emergency/disaster], which recently impacted CountyName County, has not only adversely affected residential properties, but business properties and economic vitality as well. Local small businesses are in need of economic recovery assistance to make repairs to their physical business, as well as to sustain operations in the aftermath of this disaster.

As you know, once the Governor has declared a state of emergency, he then has the option to activate the Small Business Emergency Bridge Loan Program by Executive Order. If you are not familiar with this program, its purpose is to provide a source of expedient cash flow to Florida small businesses impacted by a disaster. These short-term, interest-free working capital loans are intended to "bridge the gap" between the time a major catastrophe hits and when a business has secured longer term recovery resources, such as sufficient profits from a revived business, receipt of payments on insurance claims or federal disaster assistance.

This letter serves to officially request that you advocate for the business community in CountyName County and petition the Governor to activate the Small Business Emergency Bridge Loan Program.

Thank you in advance for your support.

Sincerely,

[Insert name]
[Insert title]
EDOName
For the most current SBEBL documents, visit www.floridadisaster.org

History
The Small Business Emergency Bridge Loan program was created in the aftermath of Hurricane Andrew in 1992. There is no statute authorizing this program; however, the option to activate the program is presented to the Governor by state legislators when a disaster is of significant magnitude to warrant a Presidential Disaster Declaration. The Department of Economic Opportunity manages the program.

Purpose
The Small Business Emergency Bridge Loan is a short-term loan program for small businesses that are experiencing difficulty surviving or re-starting operations as a result of an emergency or disaster’s physical impact on the business.

Amount
The minimum loan will be $1,000. The maximum loan will be $25,000.

Term
Loan terms are 90 or 180 days. The term will be based on individual business circumstances.

Interest
Loans will be interest-free for the term of each loan. (Penalties for non-payment begin at the expiration of the established term of each loan: 12% per annum on the unpaid balance for the first 180 days following the expiration of the term; 18% per annum on the unpaid balance thereafter.)

Eligibility
Those eligible to apply for loans under the program will include:

- Small businesses established at least one year prior to the emergency or disaster.
- Small business with a minimum of two employees. Documentation of employee compensation must be provided at the time of application. (Self employed individuals may be eligible on a case-by-case basis.)
- Small businesses with a maximum of 100 employees.
- The need for the loan and use of proceeds must be directly related to the physical impact of the emergency or disaster, including impact to building, inventory and equipment – not the economic impact/injury.
- Small businesses that have received a Small Business Emergency Bridge Loan in the aftermath of a prior emergency or disaster AND have paid the loan back in full.

Loan Recipient
Loans will be made to individuals who are at least 50% owners of the business. Only one loan per individual and/or per business will be available.

Use of Proceeds and Dedicated Sources of Repayment
Borrower will be required to sign agreements that (a) proceeds of this loan will be used only for purposes of maintaining or restarting the business in the designated area; and (b) loans will be repaid from insurance proceeds, personal funds or proceeds of other financing obtained in connection with the effects of the emergency or disaster.
Applications under this program will be accepted for approximately four to six weeks after the emergency or disaster, contingent upon the availability of funds.

Historia
El Programa de Small Business Emergency Bridge Loan fue creado después del Huracán Andrew en 1992. No hay estatuto que autoriza este programa; sin embargo, la opción para activar el programa es presentada al Gobernador por legisladores del estado cuando un desastre es de magnitud significativa de originar una Declaración Presidencial de Desastre. El Department of Economic Opportunity maneja el programa.

Propósito
El Small Business Emergency Bridge Loan es un programa a corto plazo de préstamo para pequeñas empresas que experimentan dificultad para sobrevivir o reinician operaciones a consecuencia de una emergencia o impacto físico de desastre en el negocio.

Cantidad
La cantidad mínima del préstamo será de $1,000 y la máxima de $25,000.

Plazo
Los términos de préstamo son 90 o 180 días. El plazo se decidirá con base a las circunstancias individuales de cada negocio.

Intereses
Préstamos serán sin intereses para el término de cada préstamo. (Penalidades por incumplimiento empiezan con el vencimiento del término establecido de cada préstamo: 12% al año en el saldo para los primeros 180 días que siguen el vencimiento del término; 18% al año en el saldo después de los 180 días hasta que el préstamo es cancelado en su totalidad.)

Beneficiarios
Los beneficiarios que pueden solicitar estos préstamos incluyen:

- Los pequeña empresa establecidas por lo menos un año antes de la emergencia o el desastre.
- Empresas pequeñas con un mínimo de dos empleados. La documentación de compensación de empleado debe ser proporcionada en el momento de aplicar. (Trabajadores independientes pueden tener derecho, pero será basado en las circunstancias individuales de cada negocio)
- La necesidad para el préstamo y el uso de fondos debe ser relacionado directamente al impacto físico de la emergencia o el desastre, incluyendo impacto a la construcción, el inventario y el equipo – no al impacto económico.
- Las pequeñas empresas que han recibido un préstamo del Small Business Emergency Bridge Loan después de una emergencia o en desastres previos y han pagado el préstamo anterior en su totalidad.

Destinatario del Préstamo
Préstamos serán hechos a individuos que son por lo menos 50% de propietarios del negocio. Sólo un préstamo por individuo y/o por el negocio estará disponible.

Uso de la Cantidad Prestada y Fuentes Para Pagarla
El prestatario será requerido a firmar acuerdos que (A) fondos de este préstamo serán utilizados sólo con el propósito de mantener o reiniciar el negocio en el área designada; y (B)
préstamos serán pagos con los fondos del seguro, fondos personales o fondos de otra financiación obtenida con respecto a la emergencia o el desastre. Las aplicaciones bajo este programa serán aceptadas por aproximadamente cuatro a seis semanas después de la emergencia o el desastre, sujeto a la disponibilidad de fondos.
For the most current SBEBL documents, visit www.floridadisaster.org

There is no statute authorizing the Small Business Emergency Bridge Loan program; however, the option to activate the program is presented to the Governor by state legislators when a disaster is of significant magnitude to warrant a Presidential Disaster Declaration. The Department of Economic Opportunity manages the program. Economic development organizations are instrumental in administering the loan program at the local level.

**PROGRAM PROVISIONS**

**Purpose**
The Small Business Emergency Bridge Loan is a short-term loan designed to provide temporary working capital to viable, established small businesses in CountyName County, that have experienced adverse impacts as a result of a catastrophic emergency or disaster, and that, as a result of this event, are experiencing difficulty surviving or continuing business operations. The purpose of the program is to facilitate business survival and rapid restoration of business operations during the time between the storm and the receipt of other financing or financial assistance.

**Amount**
The minimum loan amount will be $1,000; the maximum will be $25,000.

**Term**
Loans will be for a period of 90 days or 180 days, based on individual business circumstances.

**Interest**
Loans will be interest-free for the term established for each loan.

**Penalties**
Penalties for non-payment will begin at the expiration of the established terms of each loan, and will be as follows:

- 1% per month, non-compounding (12% APR) on the unpaid balance for the first 90 days following expiration of the established term;
- 1.5% per month non-compounding (18% APR) on the unpaid balance thereafter.

**Documentary Stamps**
Documentary stamps will be paid directly from the FloridaAgency loan fund when completed closing documents for each loan are received from participating banks.

**Eligibility**
Those eligible to apply for loans under the guidelines of the program include:

a. Small businesses established in CountyName County for at least one year.
b. Small businesses with a minimum of two employees. *(Self-employed individuals may be eligible on a case-by-case basis).*
c. Small businesses with a maximum of 100 employees.
d. Small businesses with a need for the loan; use of proceeds must be directly related to the impact of the emergency or disaster.

**Loan Recipients**
Loans will be made to individuals who are at least 50% owners of the business. Only one loan per individual and/or business.
Use of Proceeds
A borrower will be required to sign an agreement that proceeds of the loan will be used only for purposes of maintaining or restarting the business in the designated area. Use of proceeds to pay off debts already incurred for qualifying business maintenance or restart purposes may be authorized on a case-by-case basis.

Dedicated Source Of Repayment
A borrower will be required to certify that the proceeds of anticipated insurance claims, other loans applied for or to be applied for, and/or financial assistance grants will be used to repay the loan.

Application Period
Applications will be accepted under this program through for approximately four to six weeks following the emergency or disaster, contingent upon availability of funds.

PROGRAM ADMINISTRATION

Source and Amount of Funds
Up to [insert $ amount] will be available for this program under a contract (“Contract”) between the Department of Economic Opportunity (DEO) and the Florida Agency.

Location of Funds
Funds will be deposited in a loan program account of the Florida Agency and will be invested in short-term interest bearing securities.

Issuance of Checks
The Florida Agency will issue checks based upon the actions of loan committees formed under the program, as further described below.

Receipt and Handling of Payments
Loan payments will be made directly by borrowers to the Florida Agency for deposit to the loan program account. Funds received will be refunded to the State of Florida from this account on a periodic basis pursuant to the terms and conditions of the Contract.

Bank Involvement
All funds loaned and used to pay for documentary stamps will be state funds drawn from the FloridaAgency loan program account noted above. While participating banks will not be financially involved in the loans themselves, they will be involved in the acceptance of loan applications, the decision-making processes, and related communication with applicants, as further described below. Participating banks are also encouraged to assist borrowers as appropriate to repay their loans.

Loan Files, Records, and Related Administration
The Florida Agency will maintain all loan files and records and will, as appropriate, issue statements to borrowers concerning outstanding balances, penalty fees (if any) applied, and other reasonable information according to the procedures to be established.

The Florida Agency will prepare and submit periodic reports to DEO summarizing the status of the program pursuant to the Contract.
PROGRAM PROCEDURES

Application
1. An example of a Small Business Emergency Bridge Loan Application is included in this Technical Guide. Following a disaster, the Florida Department of Emergency Management (FDEM) will issue approved applications and related materials.

2. Applications will be distributed by participating banks and by other means and organizations as appropriate. A bank representative, whenever possible, should review the loan program and the application with each applicant at the time the application is provided. The Department of Economic Opportunity (DEO) and the Florida Agency will work with local organizations to distribute informational materials and press releases as appropriate.

3. Applicants will bring their completed application and related information, in person, to a participating bank in the designated area.

4. Participating banks will make one or more experienced loan officers available to review the application with the applicant, verifying the applicant’s identity (e.g., driver’s license) and ensuring that the application and accompanying information (if any) are sufficiently complete for consideration by a bank review committee.

Additional information may be required (e.g., copies of business or personal tax returns).

If the application is complete, the officer will accept it from the applicant, note the date and time accepted, establish an application file, and assign an application number as further described below.

If the application is not sufficiently complete, the officer will advise the applicant concerning additional requisite information and either retain the application folder pending receipt of the supplemental information, or return it to the applicant to be accepted when complete (preferable).

5. Each participating bank will be assigned an identifying number, and each participating loan officer at that bank will also be assigned an identifying number. Applications will be numbered and tracked per the following guidelines.

Participating Banks: Participating Bank Officers:
- Bank A – 01 Officer A – 01
- Bank B – 02 Officer B – 02

Each bank officer will assign a number in sequence, beginning with 001 and continuing as s/he receives and accepts applications.

Example: Application Number 02-01-005 is the fifth (005) loan application accepted by officer A (01), of bank B (02).

Loan Processing
A receiving bank will be responsible for the further processing of completed applications before they are presented to a bank review committee. This generally will involve obtaining and reviewing credit reports of the applicant or business partners, co-signers, et al., as needed; contacting business or bank references; and other activities as appropriate. Documentation and notes relating to these activities should be recorded on the application form.
or added to the application file. These loan-processing activities will be provided on a pro bono basis by the participating bank.
Bank Review Committee and Committee Actions

1. The Small Business Emergency Bridge Loan Bank Review Committee ("Bank Review Committee") will be convened as required to act on all applications within one week or less of the completion of their processing by a participating bank. Meeting scheduling, arrangements and coordination will be handled by [TBD].

2. The Bank Review Committee will consist of a minimum of five individuals, including:
   a. Three loan officers representing different participating local banks.
   b. A representative of an appropriate economic development organization.
   c. A representative of DEO, SBDC, or FloridaAgency.

3. To the extent feasible, applications will be considered in the order received and accepted as complete.

4. Each application will be presented to the Bank Review Committee by an officer of the receiving bank, who will not participate as a member of the committee in voting on that application.

5. Action on each application will be by motion of a member of the Bank Review Committee, seconded by another member, and based on concurrence of a majority of the committee.

6. Approval or denial of an application may be made conditional – for example, on receipt of additional information from the applicant, or a requirement that the loan be co-signed by the borrower’s spouse. If such conditional action is taken, it will generally be the responsibility of the presenting bank officer to communicate additional conditions to the applicant and to perform any other required activities prior to closing.

7. An officer of the bank receiving and processing the application will informally communicate the results of final Bank Review Committee action to the applicant. FloridaAgency will also provide written notification of declination decisions to the applicant within [insert #] working days of the Bank Review Committee meeting.

8. At each Bank Review Committee meeting, at least one member of the committee will be designated to take notes of facts presented, discussion, and action of the committee on each application. These notes may be recorded longhand, on a form similar to the Bank Review Committee Meeting Minutes template included in this Technical Guide.

9. Bank Review Committee meetings will be chaired by the representative from DEO or the FloridaAgency.

10. Subsequent to each Bank Review Committee meeting, the chairman will confirm the following:
    a. Collection of the meeting notes and all application files acted upon.
    b. Verification that each file is marked with the name of the applicant, application number, and the date and action of the Bank Review Committee regarding the application. FloridaAgency will retain these files.
    c. Preparation of a Bank Review Committee meeting summary that includes:
        1. The date, time and location of the meeting.
        2. The number of the meeting in sequence from the beginning of the program.
        3. The names of meeting participants, including members of the Bank Review Committee and any non-member participants (e.g., bank officers presenting
Applications, but not acting as members of the Bank Review Committee at any time during the meeting.

4. The name of the applicant, loan number, loan amount requested, and action of the Bank Review Committee on each application reviewed at the meeting, including any conditions established.

5. A summary showing the total number of applications considered, the number and total amount of loans approved, the number of applications declined, and the number of applications, if any, on which action was deferred.

d. Preparation and transmittal of a letter to each applicant whose application was declined.

1. Presenting officers should contact all applicants whose applications they presented and which were acted upon by the Bank Review Committee (whether approved, declined or deferred) to communicate results of committee action, and, in the case of applications that were approved, to schedule a time and place for loan closing.

Closing Documents
Closing documents will include:

1. Promissory Note
2. Use of Proceeds for Business Purposes
3. Assignment of Proceeds
4. Settlement Statement
5. Payment Coupons
6. Properly completed check for loan proceeds
7. Information packet concerning SBA Disaster and Economic Injury Loan Programs

Scheduling and Conduct of Closings

1. The Bank Review Committee will deliver or forward closing documents and check drafts to the appropriate participating bank for closing.

2. An experienced bank officer of the participating bank, preferably the officer who was involved in accepting or processing the application, will, in every case, conduct the closing.

3. Closings will be scheduled at times and places reasonably convenient to both the applicant and the closing officer. Those scheduling closings need to be aware of any requirements for co-signature of loans and arrange for co-signers to also be present.

4. At the time and place of closing, the closing officer will again verify the identity of the applicant and co-signer(s) (obtain a copy of driver’s license(s)), review the terms of the loan with the applicant, and proceed with closing – completing the Loan Closing Checklist and providing the applicant with the check prepared by FloridaAgency and copies of closing documents as indicated on the checklist. This may include obtaining from the applicant or co-signer additional materials or agreements relating to conditions that may have been established by the Bank Review Committee (e.g., a copy of a current occupational license).

Following closing, the closing officer will make and retain copies of all closing documents and materials received from the applicant and forward the original executed closing documents and copies of related materials to FloridaAgency for the master file.

Collections
Procedures for collection and processing of loan payments and related correspondence with applicants will be developed by FloridaAgency and DEO and will generally not involve the participating banks except as they may assist borrowers to set aside funds for making payments when due, and/or provide alternative financing of balances due.

There are many state and federal services and programs available for businesses and individuals affected by catastrophic emergencies or disasters. Programs include short-term loans and grants to cover operating or repair expenses, tax relief programs, unemployment benefits, and technical assistance. The information below is not comprehensive, but provides a representation of the programs and services available.

**Grant & Loan Programs**

**Small Business Emergency Bridge Loan**  
*State of Florida*  
This emergency loan program provides up to $25,000 in 0% interest loans for terms of 90 or 180 days for business owners who have sustained physical damage to their businesses to use while waiting for insurance or other assistance. Businesses must have been in operation for one full year prior to the date of the emergency or disaster, and have a minimum of two but no more than 100 employees.  
850.681.3601 or 407.956.5600

**Florida Small Business Recovery Grant**  
*Department of Economic Opportunity (DEO)*  
Florida Small Business Recovery Grants provide up to $5,000 to approved businesses that are unable to maintain operation and keep their workers employed due to a natural disaster. A business must have 25 or fewer employees, have been in existence for at least 12 months prior to the natural disaster, established an unemployment compensation account and have one or more employees unable to work as a result of the natural disaster.  
850.245.7105 | [www.floridajobs.org](http://www.floridajobs.org)

**Economic Injury Disaster Loan**  
*U.S. Small Business Administration (SBA)*  
Loans of up to $2 million, available to small businesses and small agricultural cooperatives suffering substantial economic injury as a direct result of a disaster. These working capital loans are made to businesses, without credit elsewhere, to help pay ordinary and necessary operating expenses that would have been payable barring the disaster.  
800.827.5722 | [www.sba.gov/disaster_recov/](http://www.sba.gov/disaster_recov/)

**Physical Disaster Loan**  
*U.S. Small Business Administration (SBA)*  
Qualified businesses of any size may apply for a Physical Disaster Loan of up to $2 million for uninsured losses as a direct result of a disaster. Loans may be used to repair or replace real estate, equipment, fixtures, inventory and leasehold improvements to pre-disaster condition.  
800.827.5722 | [www.sba.gov](http://www.sba.gov)

**Emergency Small Business Loan – Farm Service**  
*U.S. Department of Agriculture*  
Low interest FSA Emergency loans for farm operators in counties declared as federal disaster areas and contiguous counties may be used to restore or replace property, pay production and living expenses, reorganize the farming operations and refinance certain debt.  
352.379.4500 | [disaster.usda.gov](http://disaster.usda.gov)
Emergency Conservation Program – Farm Service Agency  
U.S. Department of Agriculture  
ECP provides emergency funding and technical assistance for farmers to rehabilitate farmland damaged by natural disasters.  
352.379.4500 | disaster.usda.gov

Disaster Debt Set-Aside Program – Farm Service Agency  
U.S. Department of Agriculture  
FSA borrowers in designated disaster areas or contiguous counties, who are unable to make their scheduled payment on any debt, may be authorized to have certain set-asides to allow operations to continue.  
352.379.4500 | disaster.usda.gov

Noninsured Crop Disaster Assistance – Farm Service Agency  
U.S. Department of Agriculture  
Farmers with damaged non-insurable corps or who have been prevented from planting due to a natural disaster may receive assistance through this program if they have paid the $100 administrative service fee for NAP coverage and file a timely notice of loss with FSA.  
352.379.4500 | disaster.usda.gov

Economic Development Administration (EDA)  
Disaster loans and grants to public and nonprofit organizations to assist businesses with recovery efforts.  
404.730.3022 | www.doc.gov/eda/

Unemployment Assistance & Programs

Disaster Unemployment Assistance  
Department of Economic Opportunity (DEO)  
Unemployment benefits for individuals unemployed as a result of the disaster that are not covered by regular state or private unemployment insurance. Applicants have 30 days to file after the disaster is announced.  
850.245.7105 | www.floridajobs.org

Mobile Business Assistance Unit  
Department of Economic Opportunity (DEO)  
The Mobile Business Assistance Unit is a self-contained vehicle equipped with state-of-the-art telecommunications equipment capable of being deployed inside or outside of the vehicle. The unit has the capability to provide a full range of employment, reemployment and unemployment compensation services. Procedures and scheduling forms can be found on the website.  
850.245.7105 | www.floridajobs.org/workforce/mobile_default.html

National Emergency Grant  
Department of Economic Opportunity (DEO)  
National Emergency Grants provide employment and training assistance to workers affected by major disasters or dislocations, mass layoffs, and other extraordinary circumstances. Funds may be expended to provide employment and training activities (retraining, job search, assessment, etc.) to enable workers who will not be recalled to qualify for new employment.

Short Time Compensation for Employers Program

Department of Economic Opportunity (DEO)

Short Time Compensation (STC) is a temporary alternative work style that will assist employers in keeping their work force intact. The program permits prorated unemployment compensation benefits to employees whose work hours and earnings are reduced as part of an STC plan to avoid total layoff of some employees.
850.245.7105 | www.floridajobs.org

Mobile Assistance Centers (MACs)

Small Business Development Centers (SBDCs)

The SBDCs have two RVs outfitted as self-contained business assistance centers. When disaster strikes, they are deployed and provide housing and workspace for several Certified Business Analysts to assist clients.
866.737.7232 | www.FloridaSBDC.org

Federal and State Services

FEMA

Disaster victims can obtain additional information and apply for disaster assistance through FEMA in various ways. A toll free number has been established by FEMA for disaster victims to apply for certain types of disaster programs and obtain information about others.

What is a Business Assistance Center?
Business Assistance Centers (BACs) are opened in counties affected by a catastrophic emergency or disaster. The purpose of BACs is to assist local small businesses with disaster recovery efforts. BACs are one-stop centers where small business owners may apply for assistance from a variety of state and federal agencies, including:

- Enterprise Florida (EFI)
- Federal Emergency Management Agency (FEMA)
- Florida Agency for Workforce Innovation (AWI)
- Florida Retail Federation (FRF)
- Small Business Development Centers (SBDCs)
- U.S. Small Business Administration (SBA)
- Workforce Florida (WFI)

Who is eligible for Business Assistance Center programs?
Any business located in CountyName County is eligible to seek BAC programs and services. Owners of businesses located outside of CountyName County should contact the center in the county where their business is located.

What programs are available at the Business Assistance Center?
The recovery programs and services offered at BACs will vary depending on the nature and scope of the emergency or disaster. Examples of recovery programs and services that may be available include:

**Small Business Emergency Bridge Loan**
This emergency loan program provides up to $25,000 in 0% interest loans for terms of 90 or 180 days for business owners who have sustained physical damage to their businesses to use while waiting for insurance or other assistance. Businesses must have been in operation for one full year prior to the date of the emergency or disaster, and have a minimum of two but no more than 100 employees.

**SBA Physical Disaster Loan**
Qualified businesses of any size may apply for a Physical Disaster Loan of up to $2 million for uninsured losses as a direct result of a disaster. Loans may be used to repair or replace real estate, equipment, fixtures, inventory and leasehold improvements to pre-disaster condition.

**SBA Economic Injury Disaster Loan**
Loans of up to $2 million, available to small businesses and small agricultural cooperatives suffering substantial economic injury as a direct result of a disaster. These working capital loans are made to businesses, without credit elsewhere, to help pay ordinary and necessary operating expenses that would have been payable barring the disaster.
Pre- and Post-Disaster Business Planning
Certified Business Analysts from Small Business Development Centers are available to provide general business counseling to help access traditional Small Business Administration (SBA) loans.
Filing Insurance Claims
A representative from the Florida Department of Financial services will provide information regarding filing insurance claims and Florida law affecting insurance claims for damages occurred.

National Emergency Grant
National Emergency Grants provide employment and training assistance to workers affected by major disasters or dislocations, mass layoffs, and other extraordinary circumstances. Funds may be expended to provide employment and training activities (retraining, job search, assessment, etc.) to enable workers who will not be recalled to qualify for new employment. A representative from the regional workforce board will provide information to businesses on how to file for this benefit when a business is non-operable due to event-related damage from a disaster.

What documentation should business owners bring to the Business Assistance Center?
- Business tax returns, including Schedule C and any other schedules (prior 3 years)
- Copy of all required licenses (e.g., occupational, city, business tax, etc.)
- Current profit & loss statement and balance sheet (within 90 days)
- Current schedule of liability
- Inventory list
- Personal tax returns for all principals (one year)

10. Whom should I contact to volunteer?

---

1. **Question:** What is a Business Assistance Center?
   **Answer:** A Business Assistance Center is a one-stop center where business owners may apply for assistance from the U.S. Small Business Administration (SBA), Department of Economic Opportunity (DEO), Regional Workforce Development Board and Small Business Development Centers (SBDCs).

2. **Question:** I have had damage to my business, what should I do?
   **Answer:** Contact your insurance company. You are also encouraged to register with FEMA ([www.fema.com](http://www.fema.com)) before seeking assistance at the BAC.

3. **Question:** What relief programs are available at the Business Assistance Center?
   **Answer:** The recovery programs and services offered at BACs will vary depending on the nature and scope of the emergency or disaster. Examples of recovery programs and services that may be available include:

   **Small Business Emergency Bridge Loan**
   This emergency loan program provides up to $25,000 in 0% interest loans for terms of 90 or 180 days for business owners who have sustained physical damage to their businesses to use while waiting for insurance or other assistance. Businesses must have been in operation for one full year prior to the date of the emergency or disaster, and have a minimum of two but no more than 100 employees.

   **Physical Disaster Loan**
   Qualified businesses of any size may apply for a Physical Disaster Loan of up to $1.5 million for uninsured losses as a direct result of a disaster. Loans may be used to repair or replace real estate, equipment, fixtures, inventory and leasehold improvements to pre-disaster condition.

   **Economic Injury Disaster Loan**
   Loans of up to $1.5 million, available to small businesses and small agricultural cooperatives suffering substantial economic injury as a direct result of a disaster. These working capital loans are made to businesses, without credit elsewhere, to help pay
ordinary and necessary operating expenses that would have been payable barring the disaster.
Pre- and Post-Disaster Business Planning
Certified Business Analysts from Small Business Development Centers are available to provide general business counseling to help access traditional Small Business Administration (SBA) loans.

Filing Insurance Claims
A representative from the Florida Department of Financial services will provide information regarding Florida law affecting insurance claims for damages occurred and filing insurance claims.

National Emergency Grant
National Emergency Grants provide employment and training assistance to workers affected by major disasters or dislocations, mass layoffs, and other extraordinary circumstances. Funds may be expended to provide employment and training activities (retraining, job search, assessment, etc.) to enable workers who will not be recalled to qualify for new employment. A representative from the regional workforce board will provide information to businesses on how to file for this benefit when a business is non-operable due to event-related damage from a disaster.

4. Question: Who is eligible for Business Assistance Center programs?
Answer: Any business, owner or principal in CountyName County.

5. Question: My business is not located in CountyName County. Where do I go for assistance?
Answer: Owners of businesses not located in CountyName County should contact the economic development organization in the county in which their business is located. Regional economic development organizations can be found online at www.eflorida.com/regions or by calling 407.956.5600.

6. Question: What programs can I qualify for?
Answer: A business liaison at the BAC will help determine which programs are best suited to your situation and will assist you with the application process.

7. Question: What documentation should business owners bring to the Business Assistance Center?
Answer: Prior to visiting the BAC, all disaster victims should register with FEMA (www.fema.com). To expedite the assistance application process, business owners should bring the following:
- Business tax returns, including Schedule C and any other schedules (prior 3 years)
- Copy of all required licenses (e.g., occupational, city, business tax, etc.)
- Current profit & loss statement and balance sheet (within 90 days)
- Current schedule of liability
- Inventory list
- Personal tax returns for all principals (one year)
8. **Question:** If I am approved for assistance, when will I receive the funds?  
**Answer:** The intent of the program is to release approved funds as quickly as possible. It is estimated that funds will be dispersed within two weeks of approval.

9.
Question: What volunteer opportunities are available at the Business Assistance Center?
Answer: Volunteers are needed to help staff the following functions:
  • Loan application processing (banking professionals only)
  • Business Damage Assessment survey completion
  • Administrative support
  • Guest reception / telephone
  • Spanish translation

10. Question: Whom should I contact to volunteer?
Answer: EDOName, at xxx.xxxx.xxxx or [insert email]
